

Access Technology & Employment Services (ATES)

Go to college

Get a job

Keep your job

**Employ someone
with visual impairment**

Access technologies help overcome barriers to employment for motivated people with visual impairment.

- Customized training in accessible technology expand opportunities for people seeking employment, education, or a richer quality of life.
- Job development, coaching, workforce preparation, and employer support are available.
- Workplace accommodations may include improved lighting and glare reduction. Computer screen-reading or magnification software, and devices that convert text to speech.

Live your dreams!
